

# Website Structure

We have decided to split our website into 3 main parts with 3 different stages. These are:

## Main Page

A main page with a banner, a slide of our attractions, a navigation menu with a testimonials section

## Attractions

An attraction promotion website with images of different attractions and a way to reach to more info about each attraction.

## Book Now

A booking sections that includes

- Date Selection
- Ticket Type (adult, child, senior citizen)
- A summary section
- price information.

Aside from these 3 pages, each page will include a footer that includes a contact information for any enquiry, business info and a copyright information section.
